Land of green livability

In Denmark, we look for a touch of magic in the ordinary, and we know that travel is more than ticking sights off a list. It's about finding the wonder in the things you see and the places you go.

One of the wonders that we at VisitDenmark are particularly proud of, is our neighborhoods. We are especially proud of the sustainable development, there has been going on in the big cities over the last few years.

In Copenhagen and Aarhus, our city design and sustainable thinking have made it fun and easy for tourists to make their stay more sustainable. Come and find out how!

Denmark and its regions

Geography

- The smallest of the Scandinavian countries
- The southernmost of the Scandinavian countries
- Only has a physical border with Germany
- Denmark's regions are: North, Mid, West and South Jutland, Funen, Zealand, and North Zealand and Copenhagen

Travel distances

- Copenhagen to Odense: Under 2 hours by car
- Odense to Aarhus: Under 2 hours by car
- Aarhus to Aalborg: Under 2 hours by car

- Denmark is easily combined with other Nordic countries
- Denmark is a safe country
- Denmark is perfect for all types of travelers (family, romantic, nature, bicyclist dream, history/Vikings/Royalty)
- Denmark has a population of 5.7 million people

Green Travel in Copenhagen

We like to have fun here in Denmark, even when it comes to serious topics like sustainability. We don't believe leading a sustainable life means you have to sacrifice having a good time. We want you to enjoy your Copenhagen experience to the fullest, and luckily, sustainable choices do not compromise that ambition.

Plan your trip the greenest way possible with our links to hotels, restaurants and transport that have the green seal of approval. In Copenhagen, it's actually harder to make a decision that's bad for the environment than a good one!

Copenhagen

Green Gastronomy in Copenhagen

Sustainability has become an important trend at all levels of the Danish gastronomy sustainable eateries, Copenhagen has to offer:scene. For some restaurants, organic produce is no longer enough to reduce carbon footprints. Many restaurants have their own farms and are thinking about wider considerations in regard to sustainable food for the future.

These super sustainable restaurants are not just pioneering in their green initiatives, but also in taste, as they are in fact some of the best restaurants in Denmark and in the world. Here is a list of some of the best:

Green Gastronomy in Aarhus

Sustainability has become an important trend on the Danish gastronomy scene, and it is especially showing on the Copenhagen restaurants. For some restaurants, organic produce is no longer enough to reduce carbon footprints. Many restaurants are now growing their own veggies and re-thinking energy-consumption into all processes.

These super sustainable restaurants are not just pioneering in their green initiatives, but also in taste, as they are in fact some of the best restaurants in Denmark and in the world. Here is a list of some of the best sustainable eateries, Copenhagen has to offer:

- [Il Buco](#)
- [Bæst](#)
- [noma](#)
- [AMASS](#)
- [Gro Spisehus](#)
- [BaneGaarden](#)
- [Alchemist](#)
- [La Banchina](#)
